INSTRUCTIONS

You are currently seeing One Point Perspective.
Access other perspective templates from the
Layers window.

Move, Rotate, Stretch, Skew, Distort, Warp, Colour,
etc. Use these tools to modify the lines to suit your
needs.

Thanks for downloading. If you haven't done so
already, visit DrawInPerspective.com to learn more
about using perspective when draw. If you see
value in this tool and wish to express it, please do!
Monitary donations are appreciated. Sharing the
tool and website with your networks would be
great too.
